

# NAOMI SCHLÖSSER

Software Developer

## PROFILE

From structural engineering to software development. Both involve problem solving, breaking down a large problem into smaller pieces, and building something new. All things I really enjoy.

I also love to travel to explore different cultures and cuisines, I like cycling, swimming and snowboarding and I enjoy great furniture, architecture and sustainable fashion - finding a good value second-hand piece is so rewarding!

## PROFESSIONAL SKILLS

-  Ruby
-  Javascript, Node
-  HTML, CSS, Handlebars
-  SQL, MongoDB, TablePlus
-  RSpec, Jest, Cypress
-  Sinatra, Express, Phaser
-  Indesign, Photoshop, Illustrator

## PERSONAL SKILLS

Social  
Organised  
Perseverant  
Teampayer

## EXPERIENCE

**Makers Academy, London**  
Software Development

jun 2022 - oct 2022

*16-week intensive bootcamp with a focus on OOP, TDD, pair programming, debugging and refactoring using different tech stacks. In groups of 5-7 people, I build a B&B booking app (Ruby, Sinatra, SQL), a social media app (JS, Express, MongoDB), and a 2D scrolling game (JS and Phaser).*

**Price and Myers, London**  
Structural Engineer

jun 2021 - may 2022

*I was responsible for a range of national projects, such as museums, new residential properties and refurbishments in steel, concrete and timber. I worked together with clients, architects, MEP and contractors to discuss the design principles and made sure that the work on site was being executed as per the structural drawings.*

- + Social group
- + Computational engineering group

**Eckersley O'Callaghan, London**  
Glass Structural Engineer

nov 2018 - jun 2021

*With a focus on design, I engineered specialist glass structures and complex geometries. After being promoted to Project Engineer, I started managing my own projects and was responsible for completing international projects within budget and time. Glass quality inspections were also part of my job, visiting glass manufacturers in Italy, Germany and Beijing.*

- + Social group
- + 'Glass Quality and Specification of Curved Panels' paper at the Glass Performance Days (GDP), Finland 2019

## EDUCATION

**MSc Civil Engineering, NL**  
Delft University of Technology

sep 2016 - aug 2018

**Premaster Civil Engineering, NL**  
Delft University of Technology

sep 2014 - aug 2016

**BSc Architecture, Urbanism and  
Buiding Sciences, NL**  
Delft University of Technology

sep 2011 - aug 2014
